

Nikita Voloboev

EXPERIENCE

Learn Anything Founder

May 2017–Present

- o Learn Anything is an Open Source website which lets users search Interactive Maps to Learn Anything.
- o The Website can be seen live at learn-anything.xyz. It received great feedback and is growing every day and the main GitHub repository has over 10,000 stars and growing.
- o I contributed to the main design of the website building the entire database for the maps and making the search engine.
- o The website is built using React.js, Webpack, DynamoDB and Elasticsearch.

EDUCATION

University of Eindhoven Computer Science (B.A.)

2016–2018

- o Completed many theoretical and technical modules including Data Structures, Artificial Intelligence, Computer Systems.
- o Aside from courses, I have successfully completed various group projects which included making a sorting machine written in Assembly and making a web application written in Django to save and retrieve user's favourite quotes on the web.

OPEN SOURCE

Alfred Learn Anything

2018

[github: nikitavoloboev/alfred-learn-anything](https://github.com/nikitavoloboev/alfred-learn-anything)

Alfred workflow written in Go to search Learn Anything website.

My macOS

2017

[github: nikitavoloboev/my-mac-os](https://github.com/nikitavoloboev/my-mac-os)

Curated list of macOS applications and my personal configuration with using macOS. GitHub repository over 9,500+ stars.

Markdown parser

2017

[github: nikitavoloboev/alfred-markdown-parser](https://github.com/nikitavoloboev/alfred-markdown-parser)

Go library to parse markdown to grab various things.

Alfred Web Searches

2017

[github: nikitavoloboev/alfred-web-searches](https://github.com/nikitavoloboev/alfred-web-searches)

Alfred workflow written in Go to search through any website on the internet.

Alfred Web Searches

2017

[github: nikitavoloboev/alfred-web-searches](https://github.com/nikitavoloboev/alfred-web-searches)

Alfred workflow written in Go to search through any website on the internet.

Alfred Awesome lists

2017

[github: nikitavoloboev/alfred-awesome-lists](https://github.com/nikitavoloboev/alfred-awesome-lists)

Alfred workflow written in Go to search through all the awesome GitHub curated lists.

License Up

2017

[github: nikitavoloboev/license-up](https://github.com/nikitavoloboev/license-up)

Command line tool to create LICENSE files quickly.

Knowledge

2017

[github: nikitavoloboev/knowledge](https://github.com/nikitavoloboev/knowledge)

Personal wiki where I share everything I know as an online book.
